## Geografie Graad 11 Vraestelle En Memorandums

I tried to print as PDF with the following code: private void Print(object sender, PrintEventArgs e) { string[] words = { "gewoonte", "Wiskunde", "geografie", "Wiskunde vraestel", "Wiskunde"}, f = new FileStream(@"T:\bdk\thesis\02\_2.pdf", FileMode.Open, FileAccess.Read); PdfReader reader = new PdfReader(f); PdfStamper stamper = new PdfStamper(reader, new FileStream(@"T:\bdk\thesis\02\_2.pdf", FileMode.Open)) { AcroForm = stamper.AcroForm; }; stamper.Close(); } This does not work because when I try to open the file I get the message PDFOpenDocument: [NULL]

I have been searching for a solution for more than two hours and tried almost everything. Can someone help? A: I have created a minimal working solution for you that only shows the print dialog. I do not have the PDF. The PDF is created programmatically. I have tested the PDF from your environment and it is creating a working PDF like yours. This means that your PDF is not corrupted. public class DocumentToPrint { public event Event 6d1f23a050
