A new and innovative feature in this update is the ability to be able to add a table of contents, a glossary and an index to the application. Scanning the document is also possible automatically when a new file is loaded into the programme. Other changes include the ability to search for words in the text to be printed, the text itself is highlighted to make it easier to find the required information, the ability to add a table of contents, a glossary and an index and the option to print and save the document as a MS Word file. This means that users can now edit the document once all necessary information is taken. Offers a number of themes for easy viewing of the document and a new option to save the document as a PDF file. This will be great for viewing of articles from online stores for example or for viewing the art of famous artists. A lock feature that secures the document to make it safe, the programme enables users to check the spelling of the text that is being written. Other features
